PERMIT NUMBER TNHW-127

Dear Mailing List Recipient:

The U.S. Department of Energy, National Nuclear Security Administration, and BWXT Y-12 are providing notice of the implementation of Class ¹1 permit modifications [in accordance with Title 40 of the Code of Federal Regulations (CFR) Part 270.4 incorporated in Tennessee Rule 1200-1-11-.07(9)(c)5] of Permit TNHW-127 for the Y-12 National Security Complex.

A Class ¹1 modification was submitted by BWXT Y-12 personnel to the Tennessee Department of Environment and Conservation (TDEC), Division of Solid/Hazardous Waste Management (DSWM), for the addition of two container storage units. The additional storage capacity of these units does not increase the overall storage capacity of the units in this permit, as the storage capacity of one unit was decreased to accommodate the new storage capacity. In addition, the Emergency Coordinator functions and control procedures in the Contingency Plan section, the site maps and facility drawings have been updated. These modifications will be implemented in accordance with the aforementioned rules and regulations.
